DHZ FITNESS

THE WORLD'S LARGEST MANUFACTURER OF PROFESSIONAL FITNESS EQUIPMENT

DHZ was founded in 2002 and is still owned by the founder. The company's philosophy is to offer customers high quality products for the best possible price. In order to achieve this goal, 90% of the components for the fitness equipment are made and produced in our factory.

There are no profit margins to other suppliers - to our customers advantage. Also this helps to better control quality and to make changes very quickly where needed. Driven by efficient production methods like laser cutting and robot welding we can offer very competitive pricing.

» DHZ Fitness Europe has developed significantly in recent years. We can now serve any kind of studio concept. From the Boutique club to the premium provider. With us everyone will be successful with their investment."

We offer this service on top if you order devices from us. You can use it to attract potential members via Social media and give your existing members an advance impression of your planned investment. The exercising avatars bring life to the planned studio for real.

JUST DO IT YOURSELF

In the software you will find the complete, precisely scaled equipment range of DHZ Fitness. The software is easy to use so that you can create your own 3D studio planning. Nevertheless, we recommend that you read the operating instructions carefully beforehand.

You can quickly design simple rooms yourself. If you have larger projects with larger floor plans, we offer the service to create them for you by our team of architects.

WHAT IS THE TRAINING MOTIVATION OF THE MEMBERS?

WHAT ARE THE OBJECTIVES OF THE MEMBERS?
